Administration of Inam Villages and Estates.

READ—

Letter No. C. Per. A. 14—31-32, dated 9—14th December 1931, from the Revenue Commissioner in Mysore, forwarding his report on the Administration of Inam Villages and Estates under Government management during the year 1930 31.

ORDER No. R. 3151-60—L. R. 230-31-3, DATED 12—13TH JANUARY 1932.

Survey and Settlement.—There were 213 villages and estates under Government management at the end of the year and of these, there were 31 villages and estates into which survey and settlement had not been introduced. Government have sanctioned the introduction of survey and settlement into eight villages. Though survey work was completed in three villages in the Bangalore District, settlement has not yet been done. The Survey Superintendent is requested to take early action in the matter.

2. *Jamabandy Work.*—It is reported that the Deputy Commissioners and Sub-Division Officers conducted the Jamabandy of 23 and 167 villages respectively and that the Jamabandy of the remaining 23 villages was not conducted at all. This is not satisfactory. The Revenue Commissioner is requested to issue instructions to the Deputy Commissioners of Districts to arrange in future for the Jamabandy of all the villages being conducted without any omission.

3. *Demand, Collection and Balance.*—Out of a total demand of Rs. 3,95,137 including arrears, a sum of Rs. 1,77,688 was collected including remission, leaving a balance of Rs. 2,17,449 as against Rs. 1,86,229 in the previous year. It is only in the Kolar and Chitaldrug Districts that the collection exceeded 60 per cent of the demand. In other Districts, the collection was poor, Shimoga coming last with a collection of 24 per cent only. Government regret to note that in spite of the observations made in the last year's review, the local Revenue Officers have not paid

sufficient attention to this important branch of work and that the arrears have increased. The Revenue Commissioner is requested to issue stringent instructions to the subordinate officers to take vigorous steps to collect the heavy arrears very early.

4. *Improvement of Estates.*—It is reported that the Village Panchayet Scheme was newly introduced during the year into 12 villages and that the Record of Rights Scheme was introduced into two villages.

5. *General.*—Government agree with the Revenue Commissioner that the administration of the Inam Villages under their management leaves much to be desired and that more attention and greater interest should be bestowed by local officers in regard to collection work, disposal of *takrar* cases and conduct of Jamabandy.

Working of the Horticultural Department for the year 1930-31.

READ—

Letter No. 67, dated the 14th October 1931, from the Director of Horticulture in Mysore, forwarding the Annual Administration Report of the Horticultural Department for the year 1930-31.

ORDER NO. E. 2664-2723—G. G. 7-31-4, DATED 11TH JANUARY 1932.

Recorded.

2. Mr. G. H. Krumbiegel was in charge of the Department till 8th October 1930, when he went on deputation to Europe and resumed charge again on 9th February 1931. During his absence, Mr. H. C. Javaraya acted for him.

During his deputation to Europe, the Director visited some of the principal botanical gardens and private institutions in England, Scotland, Germany and France and studied the most recent developments in horticulture and landscape gardening, as also the lay out of Zoological gardens and the nature of their collections. The Director paid special attention to the study of town planning and town improvements in the extensions and garden schools of many modern cities and towns in the countries referred to above.

3. *Economic Work.*—The most important plant imported was the Aleurities Fordii or the Tung Oil of China, an important raw product, of which a plantation is proposed to be raised. The other plants introduced included new varieties of fruit trees, timber and plants of fibrous or medicinal value.

Plants imported in previous years were acclimatised and propagated, the chief of these being the mulberry. In reviewing the administration report of the department for 1927-28, Government desired that special attention should be bestowed on the improvement of Mulberry cultivation in consultation with the Sericultural Department. The Director is requested to report on the progress made in this direction.

4. *Experimental and Development Works.*—It is gratifying to note that 65 per cent of the indigenous fruit trees distributed free to raiyats from the Central Fruit Nursery are thriving. It is reported that the nurseries at Chikmagalur and Hassan also made good progress and that altogether 37,000 plants were distributed by the Department during the year as against 23,000 last year. Government regret that owing to financial stringency, the Horticultural Inspectors attached to the Kadur and Hassan Districts had to be retrenched. It is now for the local bodies concerned to ensure the continuance of this useful district work by undertaking to share in the cost of the establishment required. An experimental orchard was opened during the year at Krishnarajasagara with the object of demonstrating the possibility of growing fruit along with the Irwin Canal and a block of land has been acquired at the head-works of the canal for fruit culture on a commercial scale. Government consider that there is much scope for the development of fruit culture in the State, and special efforts should be made by the Department to develop this industry in the State to as great an extent as possible.

The Horticultural Farm at Bangalore was as usual, chiefly concerned with the experimental raising of European and Indian vegetables, fodder grasses and economic crops. Experiments on activated sludge were also continued in connection with the problem of sewage disposal. It is gratifying to note that the Farm worked at a profit.

5. *Scientific Work.*—The collection of plants in the Botanical Garden at Bangalore was enriched by the addition of many new varieties, some of which were obtained by the Director during his tour in Europe. In addition to the demonstration of plant pest control, the staff of the Department also gave advice on improved method of fruit cultivation, green manuring, irrigation, etc.

6. *Miscellaneous.*—The Horticultural School which is reported to be popular has had its activity curtailed to some extent owing to financial stringency. It is hoped that this will only be temporary.

7. *Maintenance and Improvement of Gardens.*—The several gardens under the control of the Department are reported to have been kept in a satisfactory condition and improvements effected as far as possible. The maintenance of the Lal-Bagh and Cubbon Park was noticed to be not quite up to mark and the Director's attention is invited to the remarks of the Government in this connection and he is requested to see that these principal centres of recreation for the public are maintained in an efficient state.

8. *Nandi Hill Station.*—Many improvements were made to the Nandi Hill Station which, as usual, attracted a large number of visitors both from within and outside the State. It is interesting to note that for the first time in the history of the Station, a motor car was successfully driven up the hill, its feat having been performed by an enterprising visitor in his Ford Car in December 1930.

The Horticultural Society is reported to have maintained its popularity as evidenced by the increase in its membership.

9. *General.*—In response to the observation made in the last year's review that there was room for improvement in the general administration of the department and

that a proper distribution of work and responsibility should be made among the various officers, the Director has submitted certain proposals which are under examination and orders will issue thereon separately.

The work of the Department was on the whole satisfactory.

Travelling Allowance to Municipal High School Committees.

READ—

Government Order No. L. 6977-93—L. B. 29-30-54, dated the 2nd March 1931, directing that the District Board should meet the travelling expenses of its nominee on a Municipal High School Committee.

2. Letter No. A. 5. C. 922-31, dated 18th November 1931, from the Deputy Commissioner, Kolar District, recommending that the Travelling Allowance of the Officers nominated to the Municipal High School Committees by the Education and other Departments for attending the meetings of the Committee be ordered to be paid by the authorities that nominated them.

ORDER No. L. 4974-83—ML. 15-31-44, DATED 12TH JANUARY 1932.

The Director of Public Instruction who was consulted on the proposal has no objection to debit to the funds of his Department, the Travelling Allowance of the Departmental Officers nominated to the School Committees, provided the meetings of the Committees are not held too frequently and are announced in good time so that the Officers may be instructed to combine inspection in the neighbourhood with attendance at the meetings of the Committees.

2. The proposal of the Deputy Commissioner, Kolar District, with the proviso suggested by the Director of Public Instruction is approved, and the Deputy Commissioners are requested to issue needful instructions to the School Committees in the matter.
